About This Game

Exciting World War II Submarine Action in the South Pacific!! by Sid Meier.

0400 hours, Tuesday 1942... BATTLE STATIONS!! BATTLE STATIONS!! Enemy convoy identified on radar!! SILENT SERVICE, The Submarine Simulation, brings exciting action, great strategy, detailed graphics and an ultra-realistic simulation of a World War II U.S. submarine in the South Pacific.

SILENT SERVICE's outstanding features include: all the critical battle stations 0 engine room, conning tower and ship's bridge; challenging and realistic combat versus single ships and heavily escorted convoys; and an infinite variety of situations using complete maps and charts for the entire South-west Pacific and a sophisticated and realistic attack plotting system.

SILENT SERVICE is the most detailed and realistic submarine simulation for home computers. Player selected "reality levels" allow the player to customize complexity, and time scaling ensures that the actions and decisions are constantly required. SILENT SERVICE provides a wide selection of historical scenarios from individual attacks to patrol missions that bring challenge and fun to both the first time player and the experienced submarine veteran.

Will you, as submarine captain, select a quiet patrol sector in the Marianas Islands, or choose the dangerous waters off the coast of Japan? Is the submerged daylight periscope attack best, or do you charge in on the surface at night using only radar bearing to guide you? Do you pick off the enemy with a single torpedo shot? These decisions and many more are yours to make as you take your place among the elite ranks of the SILENT SERVICE!

Throughout The World
SILENT SERVICE is "The Best"...

USA: Best Adventure Game for the Home Computer. 1986 Charles Roberts Award for Outstanding Achievement Game

Manufacturers Association (GAMA)/Academy of Adventure Gaming Arts & Designs.

Germany: Simulation Of The Year. Best Games Of The Year Awards, Happy Computer, December 1986

It is hard to really want to review such old classics like SS based on their gameplay as they are from another era and anyone who buys the game should be well aware that this is a vintage gaming experience, which will mean functional graphics and a lot of keyboard commands and no mouse - aside from these the game though is still fun and overall complete enough in itself to be worthwhile.

Silent Service 2 is much nicer and updated version of the first game but the first one still has its charm

The only criticism I would have is that the version offered here is the DOS version of Silent Service. This is fine enough but the much better version was to be found on the Amiga and there are some good Amiga emulators out there now. This was a great game. Why can't the graphics be brought up to today's standards? Liked this game way back when. But the way this game is and others in the bundle are incomplete. There are no in-game instructions for controls. Couldn't even fire a torpedo in training mode. Also the links on the right to find this info do not open.

Edit there are PDF files in the game folder with this info. Classic. Took a little bit to get used to the controls.. I bought this game. It is the oldest game on Steam. I found out that submarines are a human equivalent for dog whistles
10/10 would bleed from ears again
